

GO ● MODERN

Go Modern Furniture have been selling the very best in quality contemporary furniture to the UK market since 2006. Established in 2006 by Tina Mahony & Simon Ingham, our focus is on fantastic quality with great design, and we have built up an extensive and versatile product portfolio of over 900 pieces over the last 4 years.

As a successful and growing company Go Modern has decided to make a splash at the Chelsea Flower Show, to launch several exciting and unique new collections of garden furniture, and to celebrate the opening of our new showroom in early June at 565 Kings Road. The products shown on this card will be exhibited on our trade stand and many are exclusive to Go Modern (stand number RHW3). We are also sponsoring the 'Go Modern' urban garden, designed by Jamie Dunstan of Gardeners Boutique (stand number RHW45).

The Una Table & Chairs – This might look like an elegant indoor dining table, but is actually made from rust proof aluminium, with a table top made in 'Trespa', a very high quality composite designed specifically for outdoor use. A popular item in Go Modern's European

contemporary garden furniture collection, the Una range is made by Calma, Spain and is available in multiple colours and sizes.

The Flow Modular Garden Sofa – New for 2010 this beautiful garden sofa is completely unique as it is a comfortable, upholstered sofa, but is also completely waterproof. Upholstered in nautic fabric and supplied by Manutti, Belgium, the modular arrangement gives you full flexibility in your outdoor space. Available in speckle, pebble, nautic and white faux leather, it will cut a dash outdoors all year long.

The Frou Frou Parasol – Have a little fun with this fringed parasol from Sywawa Belgium that sways and rustles in the breeze. At 3 metres across this is certainly a statement. Made from polypropylene raffia, it is available in black, white or green and will give you good shade in the garden while supplying a wow factor come the summer season.

The Kingston one X Armchair – Take a seat in style with this exclusive outdoor armchair, hand-woven for Cane-Line, Denmark. Produced in Europe, the white weave fibres are

extremely strong and soil resistant, UV resistant, colourfast, water repellent and frost proof – allowing this armchair to be left outside all year round. Comes with a matching sun lounger, coffee table and water-resistant cushions.

The Amalfi Gazebo – A beautiful villa on the Amalfi coast is the rightful home of this chic gazebo, from Italian luxury brand, Smania. New for 2010, this is made from teak with cushions in water resistant fabric. The collection also includes armchairs, sofas and matching lamps and planters.

The Clover Chair – Cute and quirky, these unusual garden chairs designed by Ron Arad are set to become a design classic. Available in several colours and made from a high tech plastic, these are surprisingly comfortable. Two of these can be found exhibited on the Go Modern garden.

THE BEST OF CONTEMPORARY DESIGN, FROM CLASSIC TO CUTTING EDGE
